

Maximo SME

Candidate must have a Bachelor's degree and a minimum of five years of experience using Maximo, with specific knowledge of version 7.5. Must also have extensive experience in Work Order Tracking and at least two other areas: 1) Service Request, 2) Asset Management, 3) Inventory Management and 4) Preventive Maintenance.

Desired qualification include:

- Knowledge of SDLC and Agile methodologies
- Familiar with capturing functional requirements
- Ability to conduct unit acceptance testing and provide user training
- Ability to support established business processes utilizing Maximo functions
- Experience developing cost analysis and design considerations are a plus
- Experience with Maximo Mobile is a plus
- Maximo certifications and/or a Business/Systems Analyst certification are a plus
- Maximo System Administration background is not required, but is preferred

The work location for this position is the Pentagon. Although a security clearance is not required, the successful candidate must be able to pass a background check. If interested, please send a cover letter and resume to hr@netengtech.com.
